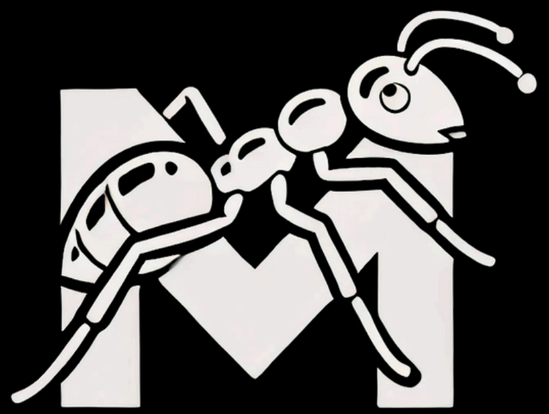
Moorcheh.ai

The Universal Memory Layer for Agentic AI

The semantic engine that combines high-fidelity storage, stateful context, and explainable retrieval



Latest Update:
2025-12-09

Case Study:
DrPal.ai: AI-Powered Digital Health Companion

Operates Across Three Key Verticals:

- Insurers
- Clinics & Doctors
- Patients

Problem:
Complexity, Latency, Scalability Cost & Hallucination

Solution:

- RAG in one API
- 10X Faster
- Scalable to Million Docs
- Built-in Reranker
